

Single Point of Contact	Secondary Point of Contact	Agency
Anita Lockhart		Nye County Healthcare Center
Christine Baron		University Medical Center
Sandra Najuna	Sophia Clemmons	AIDS Healthcare Foundation
Ronny Soy	Brennen O’Toole	Southern Nevada Health District
Anthony Castro		Dignity Health St. Rose
Lisa Haymon		CAN Community Outreach Center
Marcos Paez	Victor Hernandez	Community Outreach Medical Center
Heather Shoop		Ryan White Part A Office of HIV
Jessica Rios		Ryan White Part A Office of HIV
Tony Garcia		Ryan White Part A Office of HIV
Tiffany Evans		Ryan White Part A Office of HIV

Meeting Start Time: 3:05 pm | **Meeting End Time:** 3:50 pm

Introductions & Icebreaker: 10 minutes

2025 Calendar Year LVTGSA Performance Measurement Report:

Jessica shared cumulative information gathered throughout the year. Shared baseline End of 2024 percentages and 2025 End of Year percentages. There were many gains in Linked to Care Early Intervention Services, Viral Suppression for Medical Case Management and Outpatient Ambulatory Health Services. Despite making gains, we did not meet our goals in these areas. Retention in Care for Medical Case Management declined from our baseline of 80.63% to 64.67% by the end of CY2025 falling below the End of the Year goal of 85%. This Retention in Care for MCM decrease highlighted ongoing challenges related to eligibility transitions, documentation timing, and client engagement and will remain a priority area for quality improvement in the next cycle. **Detailed breakdown is on presentation slide #4.**

Jessica showed a bird’s eye view bar graph that detailed all performance measures and percentages by quarter. All Las Vegas TGA Quarterly Performance Measures and percentages are listed. **Detailed breakdown is on presentation slide #5.**

Demographic data was reviewed across the monitored performance measures, including age, race, and ethnicity. The presentation highlighted overall distribution patterns and notable trends within each measure, with detailed breakdowns provided in the accompanying slide deck. This review supported ongoing monitoring efforts and informed discussion around equity, access, and performance across client populations. **Detailed breakdown is on presentation slide deck.**

LVTGA 2025 Milestones:

Key milestones achieved in 2025 were reviewed, including progress on planned activities, implementation timelines, and completion of major deliverables supporting program goals. Jessica mentioned the 4 Lab Data Days that took place throughout the year, as well as the 44 Clinical Quality Management Capacity Building, Technical Assistance & Support Sessions that she provided providers throughout the year in 2025.

General Discussion & Takeaways:

The Clinical Quality Management Committee reviewed key information and shared observations related to the topics presented. Discussion focused on high-level trends, areas of consistency and opportunities for continued monitoring. Participants asked clarifying questions and acknowledged the importance of using the information to inform future planning and decision-making. Overall, the discussion reinforced alignment with current priorities and next steps moving forward.
